

NL-102 CIP

Heavy Duty CIP Detergent

- Loosens and Removed Heavy Residues • Improves Rinsing

Description

NL-102 CIP is a heavy duty non-foaming liquid foaming cleaner designed for circulation, and use in CIP (Cleaning In Place) systems for wineries, dairy, and food processing plants. NL-102 CIP readily penetrates, loosens and removes heavy residues and is highly effective on protein soils. It provides powerful cleaning action by breaking up organics and proteins, and effectively rinsing away without re-deposit.

Sizes: 20 litre, 210 litre, 1000 litre

Product Features

- Accepted for use by the Canadian Food Inspection Agency (CFIA)
- Rapid attack and removal of organic stains, tannins, lignins and protein soils
- Can be automatically controlled and dispensed
- Improves rinsing
- Helps control stone and mineral films
- Prevents pump cavitation and ensures full pipeline circuits
- Leaves no water films and requires minimum rinsing cycles

Applications

Breweries
Kitchens
Washrooms

Descaling
Food Plants
Transportation

Physical Properties

Appearance	Pale Yellow Liquid
Odour	Mild
pH	(1% solution) 13.2 +/- 0.05
Average Specific Gravity	1.27
