

NL Parts Washer

Parts Washer/Degreaser

- Free Rinsing
- Non-Flammable
- No VOC's

Description

NL Parts Washer contains a complex and very unique mixture of nonionic and anionic plant based surfactants with natural mineral complexing agents. NL Parts Washer is an excellent choice for chemical cleaning of hydrocarbon foulants such as oils, greases, waxes, gums, tars. Safe on all ferrous and non-ferrous metals. NL Parts Washer provides a highly effective and easy-to-use alternative to compounds containing volatile organic solvents, halogenated solvents, petroleum-based degreasers and inorganic phosphates. Contains no heavy metals - biodegradable and exhibits little environmental impact when disposed of properly. On-site use eliminates cost of dismantling equipment, sending it off-site for cleaning services and reassembling.

Packaging/ Handling

NL Parts Washer is available in 4L jugs, 20L pails, 210L drums, 1000L totes and in bulk. Before using this product please refer to the Material Safety Data Sheet for all safety and handling information.

This green product works superior to conventional non-green products and is Environmentally Safe.

Application

NL Parts Washer can be diluted: 1part concentrate with 20-40 parts water for general light cleaning. For parts washers & heavy-duty cleaning dilute 1part NL Parts Washer with 4-10 parts water depending on soil. Note: Soil conditions will vary, therefore trial of different dilution rates is recommended to determine proper dilution for the job.

Physical Properties

Physical State:	Liquid
Odour/Appearance:	Water thin, clear blue, mild odor
Specific Gravity:	1.04+/-0.05
Solubility in water:	Soluble
Freezing Point:	0 °C/ 32 °F
Boiling Point:	100 °C/ 212 °F
pH:	11.8 +/-0.2
